A close-up photograph of a black bowl filled with a vibrant yellow curry. The curry contains chunks of orange-brown chicken, halved cherry tomatoes, and dark green leafy vegetables. A metal spoon is partially submerged in the curry. In the background, two small black bowls contain orange and white sauces. In the foreground, a plate of white rice with black specks is visible. The background is a dark, textured surface.

DELICIOUS VEGGIE & VEGAN DISHES

WHO WE ARE

Paramount are an award-winning manufacturer based in Devon, specialising in frozen vegetarian, vegan, seafood and gluten-free products for today's fast-paced global food industry. We aim to offer the best value for money in everything we do, without compromising on quality.

Founded in 1988, Paramount remains a family-owned business with an experienced, passionate and reliable team dedicated to providing the finest products and excellent customer service.

Our business continues to grow, with investment in our production capacity, factory capabilities and most importantly, in our valued people.

We have held the BRC (British Retail Consortium) Global Food Safety Standard Certification since 1999 and we are currently graded AA+ under the unannounced audit scheme.

We're incredibly proud to be a responsible and caring company, from the way we source our seafood and raw materials to the carbon reducing initiatives we have in place.

FOODSERVICE

We've been creating award-winning products for the foodservice industry for over 35 years. Our range includes everything from starters, sides and sharers to veggie burgers and Centre of Plate options.

We are always excited to work with wholesalers looking for new suppliers, national restaurant groups looking for best-selling menu items, and chefs and end users looking for stockists of our range.

EXPORT

We export our premium products across the world, including Europe, Australia, the Middle East and Asia.

We have a professional and experienced export team based in the UK along with global on-the-ground resource in key markets with local knowledge.

RETAIL & CO-PACK

Our creative chefs love nothing more than getting their teeth into a new development brief. We have a wide range of capabilities within our factory, from coated and uncoated products to ready meals and melt-in-the-middle fishcakes to name just a few. Plus, our experienced in-house team have the expertise to get your development brief over the line.

So if you're looking for an exciting and vibrant new product, get in touch today to see how we can help you.

LIFE ON THE VEG

LOVING PLANTS COULDN'T BE MORE RELEVANT THAN IT IS TODAY

There's no denying the rising interest in plant-based living. Many of us are actively reducing our intake of meat, born out of a greater understanding of our impact on the environment, as well as the added health benefits.

25% OF DINERS WOULD CHOOSE A VEGAN DISH WHEN EATING OUT BUT ARE FRUSTRATED BY A LACK OF OPTIONS. (CGA'S FOOD INSIGHT)

How can you easily cater to both diets without making vegetarians feel they're forced to choose the vegan option?

Offering a selection of vegan and vegetarian products you can mix and match across different day parts and dishes will limit the number of menu slots whilst satisfying customers looking for choice.

VERSATILE & IRRESISTIBLE

For example, our Spicy Sweetcorn Fritters can be adapted to suit a range of requirements. Serve topped with avocado and pickled red onion, plus the option to add either Feta or vegan Greek-style cheese.

Perfect for lunch, brunch, a street-food style snack, or an irresistible canapé.

F0916 Spicy Sweetcorn Fritters

- » 23% OF PEOPLE GLOBALLY ARE TRYING TO REDUCE OR LIMIT THEIR MEAT CONSUMPTION AND THIS NUMBER IS GROWING - IT IS NOW CLOSER TO ONE-IN-FOUR CONSUMERS, COMPARED IN ONE-IN-FIVE IN 2019. (EUROMONITOR 2022)
- » 1 IN 3 OF CONSUMERS WHO LIMIT THE AMOUNT OF RED MEAT OR POULTRY THEY EAT ARE ALSO CLASSED AS 'THE MOST ADVENTUROUS' DINERS. (MINTEL MENU TRENDS 2023)
- » THE NATIONAL FOOD STRATEGY FOR ENGLAND, COMMISSIONED BY THE GOVERNMENT, RECOMMENDS MEAT CONSUMPTION IS CUT BY 30% WITHIN A DECADE.

F0865 Red Pepper, Bean & Aubergine Chilli

TOP TIPS FOR PLANT-BASED PERFECTION

- » Offer a vegan burger with an optional add-on slice of cheese – a great way to keep vegetarians happy and still have a great vegan dish. Maybe you could carry one type of vegan cheese for the plant-curious too?
- » Choose a vegan curry as your base and up-sell with other ingredients you already carry. This will cut down on prep time and help to use up other proteins in the fridge. We love our Vegan Penang Curry with pan-fried tofu, juicy king prawns or chargrilled chicken. Or try our Massaman Curry with a side of tempura vegetables, crispy coriander leaves and toasted coconut.
- » Use one product across different menu slots to save space back of house. For instance, our Red Pepper, Bean & Aubergine Chilli is great as a traditional main course, or as a topper for nachos, baked potatoes or tacos.

Sustainable fishing means leaving enough fish in the ocean, respecting habitats and ensuring people who depend on fishing can maintain their livelihoods. (MSC)

FISHING FOR THE FUTURE

SOURCING RESPONSIBLY & SUSTAINABLY

Today's consumers are passionate about living and dining in a more environmentally friendly way. For Paramount, this has always been at the heart of our business and influences everything we do, from our environmental practices to our sustainably and ethically sourced ingredients.

We recognise the urgent need to encourage and develop better fishing practices for the management of global fish stocks and their future. We believe that sustainable sourcing and responsible fishing has to be the focus for companies in the seafood world and we have been at the forefront of this for many years.

We actively promote products that contain seafood from MSC sources or other internationally recognised sustainable fishing standards, as well as from aquaculture farms that are well-managed and sustainably run.

INVESTING

IN PEOPLE & THE PLANET

Being a responsible and caring company has always been at the heart of what we do. Since we began in 1988, we've continued to look for ways to lower our carbon footprint, reduce our waste, look after our staff and become more sustainable and environmentally friendly.

OUR ENVIRONMENTAL PRACTICES

- » 100% of our food waste goes to anaerobic digestion to produce electricity
- » 100% of our non-food waste is recycled
- » 100% of our electricity comes from renewable sources such as biomass, photovoltaic and wind
- » We invest regularly in new equipment to reduce our energy consumption
- » We donate surplus food to local community groups and charities
- » We source responsibly and locally where possible
- » Our seafood comes from fisheries that are well-managed and sustainable
- » We've removed non-recyclable black plastic from our business

LIVING WAGE UK EMPLOYER

We care about our people and are proud of our status as an accredited Living Wage UK employer, which we have held since 2021.

This means that we are committed to paying all of our staff the real Living Wage, the only rate that's independently calculated based on the real cost of living.

Paramount are committed to delivering a fair day's pay for a hard day's work, and we know this makes a real difference to one of the most important parts of our business – our people.
